PROFESSIONAL SUMMARY

Final-year BSc Information Technology student at the University of Ghana with hands-on experience in front-end web development and full-stack project work. Built NextLeap, a full-stack job portal with AI-powered resume analysis, alongside a quiz application and a personal portfolio site, working across HTML, CSS, JavaScript and React, with growing exposure to backend development, version control and deployment. Seeking a National Service placement in ICT Support, Web Development, or Administration where these skills can be applied and developed further.

SKILLS, TOOLS & COMPETENCIES

SKILLS	TOOLS & TECHNOLOGIES	COMPETENCIES
• Front-End Development: HTML5, CSS3, JavaScript • Frameworks/Libraries: React, Bootstrap • Responsive & mobile-first UI design • REST API integration	• Git & GitHub (version control) • Visual Studio Code • Figma (UI/UX design) • Exposure to Node.js, Express & MongoDB	• Problem-solving • Attention to detail • Teamwork & collaboration • Clear communication • Adaptability & fast learning

PROJECTS

NextLeap — Job Portal (Final Year Project)

2025 – 2026

Full-stack job portal connecting job seekers and employers, with AI-powered resume analysis.

- Built a full-stack job portal with distinct roles and permissions for job seekers, employers and administrators.
- Developed the front end with React and Vite, and the backend with Node.js, Express and MongoDB.
- Implemented secure authentication using JWT and bcrypt password hashing, with email verification for new accounts.
- Integrated the Google Gemini API to provide AI-powered resume fit analysis for employers reviewing applicants.
- Added an employer verification workflow, PDF resume uploads, application tracking and automated email notifications.
- Deployed the application using Vercel (frontend), Render (backend) and MongoDB Atlas (database).

QuizMe — Web Application

- Designed and built a full-stack quiz application with separate front-end and back-end components.
- Deployed the application for public access, with backend hosting configured for production use.

Personal Portfolio Website

- Designed and developed a personal portfolio site using React and Vite to showcase projects and skills.
- Deployed the site for public access at derrick-akwaboah-portfolio.vercel.app.

EDUCATION

University of Ghana

Bachelor of Science in Information Technology

Expected 2026
